

## WorkBC Find Your Fit Classroom Resource Activities

### Introduction

The classroom activities found in this package are meant to enhance and extend the experience your students will have at the *WorkBC Find Your Fit* event. Some of the activities are intended to provide context for students prior to attending the event and one activity is meant to be used as a follow up once students have attended the event.

Even if your students will not be attending the *WorkBC Find Your Fit* event, these activities can be used to familiarize students with online *WorkBC.ca* tools and services.

The activities in this package are designed for B.C. students. Depending on which grade you teach, certain activities will touch upon Prescribed Learning Outcomes in the curriculum.

Some of the activities (or parts of them) require students to have access to computers/tablets and Wi-Fi in order to explore online websites and tools. However, not all of the activities require this technology.

The following are activities available on the *Find Your Fit* website [www.WorkBC.ca/FindYourFit](http://www.WorkBC.ca/FindYourFit)

- **Occupation Skills** (grades 9 to 12)
- **Occupations of Interest** (grades 5 to 10)
- **You Have Skills** (grade 5 to 10)
- **Blueprint Builder** (grades 5 to 10)
- **Find Your Fit Post Event Activity** (grades 5 to 10)
