

Resource Directory of Disability Programs and Services Students with Disabilities in Public Post-Secondary Institutions

Introduction

The Province of British Columbia has declared its commitment to access to education for all students with disabilities. Through the development of policy, procedures and the implementation of programs the Province has addressed student needs at public educational institutions through reasonable access to appropriate learning opportunities.

Programs and services for students with disabilities have grown and improved over the past decades. The aim of the Ministry of Advanced Education, Skills and Training (AEST) is to ensure that students with permanent disabilities are appropriately represented in the post-secondary population, receive barrier free education and acquire the skills and training necessary to access the labour market.

The Resource Directory of Disability Programs and Services has been developed in consultation with the Disability Coordinator Articulation Committee and is updated annually. The document is intended to provide information on Permanent Disability Programs and Disability Support Service contacts for potential students, their counselors, families, and referral agencies.

The Directory is organized alphabetically by institution, with separate listings of services and programs. Any revisions for the Resource Directory should be forwarded to:

Disability Support Services for Students with Disabilities Public Post-Secondary Institutions

The Disability Services or Disability Resource Centre is the contact area at post-secondary institutions for students identifying as having a disability, and seeking to access disability services. The Disability office provides learning and environmental services and supports to student with disabilities and liaises with the student, faculty and other campus offices in a manner that is supportive of the students' educational needs.

The office also collaborates with AEST and external service providers as needed to support students with disabilities. All services and accommodations are assigned based on medical documentation provided by the student outlining the nature and extent of their disability and the functional impact it may have in an educational environment. Students are advised to contact Disability Support Service (DSS) at their institution of choice four to six months before starting classes to arrange support services.

The following is a general process for the provision of services and supports. More detailed information can be obtained by contacting the Disability office at each institution.

Post-Secondary Communication Access Services’ (PCAS) is funded by the Ministry of Advanced Education and housed at the British Columbia Institute of Technology (BCIT). The program’s mandate is to promote public post-secondary education that is accessible for students who are deaf, hard of hearing or deaf-blind and attending, or planning to attend college or university in British Columbia (BC).

Supports are provided to disability coordinators, administrators, staff, and service providers working in post-secondary institutions across BC. The program also offers resources for students who want to explore service options in post-secondary. PCAS offers:

- Consultation related to accommodation planning
- Resources on hearing loss and disability access
- Provincial Guidelines and Pay Scales for interpreting and transcribing
- Job descriptions for service providers
- Services such as the Post-Secondary Interpreting Screen and Employment Registry (Jobsline)
- Workshops on legal access, accommodation planning, managing human resource issues, skill building for interpreters and transcribers, and strategies that promote classroom access.

ATBC Program (Assistive Technology-BC)

ATBC recognizes that disability reflects diverse characteristics and experiences integral to society. To that end, ATBC collaborates with persons with disabilities and members of the learning and working environments in which they interact, to create usable, equitable, inclusive and sustainable environments through the use of assistive technology.

Technology resources include:

- Technology assessment,
- Consultation
- Provision of assistive technology
- Training and tip sheets on the use of assistive technology
- Repair and trouble-shooting support, and evaluation of new technologies.

Technology Programs Managed by AT-BC includes:

➤ **Canada Student Grant for Services and Equipment for Persons with Permanent Disabilities (CSGP-SEPD)**

This grant is designed to help students overcome educational barriers resulting from a permanent disability. Eligible students may apply to receive a non-repayable Grant (for up to \$8,000 per program year) for assistive technology to help access public or private post-secondary institutions. Referral source: Public post-secondary disability coordinator or advisor.

Funded by: StudentAid BC Branch, Ministry of Advanced Education

➤ **Program for Institutional Loans of Adaptive Technology (PILAT)**

The PILAT program is designed to support public post-secondary institutions in meeting their duty to accommodate students with disabilities through the provision of supplementary assistive technology resources. The program supplements existing institutional resources as extraordinary issues arise through the provision of assistive technology support, training on the use of assistive technology to institutional staff, and bulk pricing for institutional purchases.

Funded by: Ministry of Advanced Education

Center for Accessible Post-Secondary Education Resources (CAPER-BC)

Fax: 604 – 323-5544

General e-mail: caperbc@langara.bc.ca

CAPER is a provincial agency, located at Langara College and funded by the Ministry of Advanced Education, to provide information support to post-secondary students with print disabilities who require this service and have been assessed for eligibility.

CAPER provides alternate format materials for student with disabilities who require the service. The specific activities include:

- Processing requests for alternate formats;
- Loaning alternate formats from CAPER and partner collections through resource acquisition and sharing;
- Researching and coordinating new technology and product evaluations and implementing efficiency tools,
- Providing information and advisory services for student assignments, research, teaching and learning through the use of alternate formats and assistive technology;
- Training students and staff in the use of alternate formats; and
- Producing accessible formats.
- The most common request is for course text material to be converted into a different format for access purposes.
