

# Labour Market Partnerships (LMP)

Helping communities tackle labour market challenges and plan for future workforce needs through strong collaborative partnerships.

## Examples of LMP Projects:

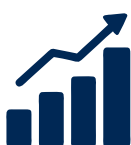

### Regional Labour Market Strategy

Develop a three-year plan to address workforce shortages by researching trends and barriers to attraction and retention.

### Industry-Specific Skills Gap Analysis

Identify skills shortages, such as those in the manufacturing sector, and create an action plan to align training with employer needs.

### Community Labour Market Study

Survey communities to assess labour market and training needs and inform local economic development strategies.

### Piloting Labour Market and HR Strategies

Tests new approaches to support local workforce planning and address labour market challenges.

### Job Fair and Employer Engagement

Connect employers with job seekers through events and workshops to address layoffs and workforce transitions.
